He has passed almost his entire life in San Mateo county, being educated in its schools. After graduating from the grammar school he entered the Sequoia high school in Redwood City, where he took a four-year course, graduating with the class of 1899. In the fall of 1899 he entered Stanford university, where he completed the regular course of study in the year 1903, receiving the degree of bachelor of arts. COUNTY OFFICIAL PAPER.

D. E. O'KEEFE, Editor and Proprietor

FOR PRESIDENT
WILLIAM H. TAFT
OF OHIO.

Vote for H. E. Holmquist for Assemblyman. He will fill the bill.

J. J. Bullock is making a splendid canvass for Superior Judge—Well, he auto.

A vote for Hall C. Ross for Senator is a vote for a United States Senator in 1909 and again in 1911. Republicans remember this.

THREE WORTHY CANDIDATES.

The Republican party of the county presents three Supervisors for election and they commend themselves to the people. Julius Eikerenkotter of the First township has held the office for eight years has given to the people good roads. Without doubt the roads in that township were never in better condition. He has built more miles of road than any of his predecessors. If re-elected he will continue the good work. He deserves another term and no doubt the voters of the First township will give it to him.

In the Fourth township, Thomas C. Johnston is the candidate, and has all the qualifications necessary to make an ideal Supervisor. He has spent the greater portion of his life in that township, knows its needs and besides is a practical man. He has a host of friends who predict his election.

John MacBain is the candidate in the Third township. During his four years of service as Supervisor he has shown his fitness for the place. The roads in his district are in fine condition, notwithstanding the many obstacles he had to encounter during his term of office. When the contract was awarded for the new court house, his associates on the board, delegated him, knowing his ability as a builder, to watch the construction of the building. Mr. MacBain visited it almost daily for months, spending his own valued time, and by doing so saved the people many hundred dollars. For this he deserves the votes of the citizens of his district and the respect and good wishes of the people in other parts of the county. The taxpayers should see to it that he is re-elected. Mr. MacBain certainly deserves well at the hands of the voters of the township.

It completely envelops the hips; the soft cloth extension of the skirt incases the fleshy part of the limb. The Standard of Fashion, the Foundation of a Perfect Fitting Go

The new fashion is known as Directoire and in this mo are many ideas, all of which require careful corsetting.

Through their cut and wumming mode current fashio should convey the impression of unbroken lines. Redfern models produce this result.

We standardized Redfern corsets so that ever corset is t essential matter of wear is equally high, no matter what t price. Every Redfern corset is guaranteed not to RUS BREAK or TEAR.

CITY COUNCIL HOLD MEETING

The first move towards the ordering of a bond election was made by the city council Monday evening when City Attorney Mansfield was instructed to take the legal steps necessary to that end.

The new issue will be for $20,000, to be used for assisting in the payment of assessments for street improvements that have recently been ordered. When a former street bond was issued several streets were designated as among those to be improved, but the funds ran out before any work was begun on them, and the latest scheme has been to have the work done under what is known as the "1901 act". This calls for a direct assessment payable in full at once, or in ten year installments, at the option of the property owners. In many cases this act causes a great hardship upon the owners, especially where his property has more than one frontage, and a great injustice is also done, because he must pay the interest upon the former bond issue, which improved streets that are not near his holdings, while he under the "1901 act", must pay out of his own pocket the improvement of the streets around his home, and in each case the tax which he must pay amounts to a tidy sum.

Chairman Merrill asked Hynding and Surveyor Neuman if the cost of culverts had been considered in making the estimate of cost of the street improvements. These gentlemen said that they had not.

Merrill then showed that the culverts would cost $1400, and that the city's portion of improvements would come to $5000. This sum would have to come out of the general fund or from the bond issue and if from the latter would take in twenty-five percent of it.

City Attorney Mansfield was asked what should be done if the amount collected was not sufficient to make the improvements ordered, and he stated that if the present assessment was insufficient another could be levied and then another, until the work was completed.

A supplemental list of streets to be improved in case the bond issue is favorably voted on was presented as follows:

Fourth street, from "C" to "D".

"C" street, from Eighth street to creek.

"B" street from Eighth street to creek.

Eleventh street from Arguello St to county road.

Eighth street from "D" street to county road.

Jackson street from railroad to county road.

Main street from Franklin street to county road.

Madison street from railroad to county road.

Monroe street from railroad to county road.

Lathrop street from Elm street to county road.

Chestnut street, from Stambaugh to railroad.

Cassia street, entire length.

Elm street, entire length.

Walnut street, entire length.

Cedar street from Stambaugh to Mound street.

Redwood Avenue.

County road from Finger's bridge to Woodside road.

As in the opinion of the majority of the board, acceptance of the agreement with N. J., Brittan for lease of a quarry would bind the town to the use, solely, of rock from that quarry for ten years, and not receiving from Mr. Brittan any indication that the agreement was satisfactory, the action of the board at the last meeting was rescinded.

A petition was received from the local board of trade regarding the scattering of scraps of paper about the streets, and requesting the council to locate cans for the deposit of garbage, at different places along the main streets. The matter was referred to the committee on health and morals with power to act.

Trustee Brown, chairman of the finance committee reported the sale of six lots last Saturday, for non-payment of street assessments These lots were bought in for the town by Brown. They can be redeemed by payment of the full amount of the assessment with twenty-five percent additional for delinquency.

The action of Mr. Brown was ratified by the board.

H. C. Tuchsen appeared for the Redwood avenue people and requested to know if an application for macadamizing of the avenue had been made. Merrill informed him that the residents on the avenue had requested to be allowed to do certain work for themselves but that if a majority of the property owners sign an application it would be acted upon.

The city attorney was directed to notify all property owners who had not complied with sidewalk and curb regulations that they must construct at once.

A proposition to extend the lighting system in Wellesley and Dingee parks and along the Brittan road was discussed and further consideration postponed until next meeting.

Hynding presented an ordinance changing the name of "A" street to Broadway. It will be fully considered next meeting.

Street Superintendent Dickey was directed to estimate the cost of filling in at both ends of Webster street bridge.

Contractor Hess was allowed to use water from the mains in filling a ditch on the county road.

The contract for building curbing around the crescent in Wellesley Park was awarded to Geo Casey, at 34 3-4 cents per lineal foot, being the lowest bidder.

Bids were received for laying water pipe as follows: Hazelwood & Doane, 4 inch pipe, 20 cents per foot; 6 inch pipe 24 cents per foot. Dodge & Hess 16 cents per foot. G. W. Cushing, 17 3-4 cents per foot. Heafy & Elftman, 1400 feet 4 inch pipe, 12 cents per foot; 1260 feet 6 inch pipe, 14 cts. per foot. Consideration of bids postponed to next meeting.

DAMAGE SUIT FOR TEN THOUSAND DOLLARS

A complaint has been filed in the Superior court by John Morton, against Walter Scott, H. Gollobear and M. Cohn to recover $10,000 damages. Morton had been conducting a hardware store in San Mateo and had a stock valued at $12,000 and solvent credits amounting to $8,000, while his debts were estimated at $10,000. He assigned the business to Walter Scott who is an employee of the Pacific Steel and Hardware Company of San Francisco, who obligated himself to run the business as a going concern and under no circumstances to turn it over to the San Francisco Board of Trade In case the business became unremunerative the stock was to be removed to San Francisco and there distpose of. On the contrary, Scott turned the business over to the board of trade af San Francisco and that body sold the entire stock to H. H. Gollobear at 35 percent of its value. Mr Cohn was put in charge and advertised the stock as bankrupt and proceeded to sellit off.

Morton charges that Gollobear is one of a number of business men known as the "Forty Thieves", who are banded together for the purpose of securing controle of embarrassed concerns and selling their stock at low prices, resulting in an injury to trade.

Hunters Must Obey Law

Sportsmen are notified by the county game warden that the law in regard to night shooting of ducks or any game birds will be rigidly enforced. This law prohibits the shooting of birds any time between a half hour after sunset and a half hour before sunrise. The law applies to the marshes as well as the hills, but the officers have been instructed to look out especially for hunters who go into the hills along the peninsula and shoot the birds as they fly from the Spring Valley lakes to the marshes along the bay.

A Tough Cure.

Faith will do wonders. A woman in Devonshire, England, recently said to a chemist:

"I've got a cruel, bad cough, surely. I've heerd that bronchial troches are good things. Hav'ee got any?"

The assistant pointed to a small box on the table and said:

"Yes; there they are."

"How much is it?" was the inquiry.

The price was paid, and the old woman took her departure. At night the assistant missed a box of glycerin soap (three cakes).

A couple of days afterward she returned to the shop and said:

"I want'ee to take back two of them things I had t'other day. I took one of 'em. It was mortal hard to chew and awful to swallow, but it cured the cough."—London Queen.

Is Friday Unlucky?

Is Friday unlucky? Gladstone, Beaconsfield, Washington, Bismarck, Fahrenheit and Spurgeon were born on Friday. Henry VIII. gave Cabot his commission which led to the discovery of North America, Columbus actually discovered the continent and the pilgrim fathers landed at Plymouth Rock on Friday. Once more: The first newspaper ad. and the first newspaper printed by steam power (the London Times) appeared both on a Friday, while the stamp act was repealed in England on the same day of the week. With Charles Dickens Friday was an especial favorite.—Chicago News.

The Horseshoe.

According to the old superstition, if you find a horseshoe and nail it over a door or on a door of entrance to your house or flat witches cannot enter. This belief is universal. The horseshoe as an amulet is known among Turks, Jews, gentiles, infidels, believers, heretics. The crescent emblem of the Buddhists is a horseshoe. The safeguard against witchcraft may be found in Tunis, Constantinople, Spain, Sicily. Images of crocodiles made in Cairo carry horseshoes on snout and tail. The rich and aristocratic, the poor and lowly, believe alike in the efficacy of the charm.

Making Thorough Canvass

Joseph J. Bullock is making a whirlwind campaign for Superior Judge. He has purchased a new automobile and has already seen the greater portion of the voters of the county. He is going to make the best canvass ever made by any candidate that has ever aspired for any office in the county. He is receiving encouragement every where he goes, and more particularly in the north end of the county where his friends are legion. Mr. Bullock has held the office of District Attorney for the past ten years and has shown his ability as a lawyer and prosecutor. At the last election he received a majority of 962 votes. This was certainly a splendid endorsement of the conduct of his office during the past term. His friends predict his election by a substantial vote.

An Ideal Candidate.

The Republican party is singularly fortunate this year in its selection of an Assemblyman nominee. Mr. H. E. Holmquist, who is the standard bearer, is well equipped in every way to make a splendid campaign and also to make a most efficient official when he takes his seat in the State Legislature. He needs no introduction to the people of the county, for on many occasions in the past, his eloquence has made him a welcome visitor at patriotic and political gatherings. Hr. Holmquist is a born orator, and this fact, coupled with his splendid education, makes him an ideal candidate for the position which he aspires. San Mateo county has never had a better candidate and he is gaining friends wherever he goes. Vote for Holmquist.

In last weeks issue of the Democrat it was stated that the Blackburn ticket was defeated two to one. This was only another false report of the Democrat for the truth of the matter is Dr. Blackburn's ticket defeated the Coburn ticket over two to one at San Gregorio and there was no Blackburn ticket in the field at Pescadero.

An interesting fact is that in Pescadero out of 208 voters only 52 voted not withstanding there was no opposing ticket and Mr Coburn had two automobiles and a team out to bring in the voters.

HAYES FOR CONGRESS

In sacred writ we have the saying, "By their fruits ye shall know them." The statement is a general truth and applies even in politics. In a period of 48 years the people of the nation have but twice entrusted our affiars to the Democratic party. In that time one of their candidates twice secured an election and was once rejected. The first election of Cleveland has been regarede by many well informed people as one of the accidents of our political life. His rejection for Harrison at the end of his first term was a deliberate act of the people, and his subsequent reelection over Harrison another deliberate act. Without a doubt he was the greatest man of his party since the Civil war. In long reveiw Douglass, McClellan, Seymour, Greeley, Tilden, Hancock Bryan and Parker have passeds before the American people, and been rejected, and as if sure to make no mistake the "peerless one" has twice been rejected, and will undoubtedly be rejected again. Even Cleveland himself not long before his death set the seal of his disapproval on the perennial aspirations of Mr. Bryan, and advised the election of Wm. H. Taft. In the last three State campaigns in California, Republicans have been selected for Governor. The voters of the state have become intelligent enough to know in whose hands they can place their pollicatl interests with safety.

In the same period and for some years before a Democrat has but once represented this congressional district. To be sure a man claiming "to represent labor" was sent to Washington in 1902, and what was he able to do for the people of his district? Nothing at all. His party were in the minority. He was entirely unacquainted, and could simply join his political associates in a policy of obstructon. At the end of his term the workingmen had enough, and Mr. E. A. Hayes was chosen instead. In four years he has become an important factor in securing legislation benefical not only to the naton, but also to the State and to the district as well. Now the voters are asked to make a worse mistake than in 1902, and send an Independent League-Union Labor-Democrat to Congress.

Wise of a wisdom far beyond our shallow depth is that old saying "Ye can not serve two masters," and lo and behold here is a politician who thinks he is able to serve three. If successful, he will disown them all and serve himself..

There is no greater mistake for laboringmen to make than to imagine that no one can serve them so well, as some one who claims to have risen from their ranks. Such men are seldom well enough educated to render effective service. If that charge can not be laid at their doors, it will usually befound that they are either so narrow or so dogmatic as to surely arouse the opposition of their fellow members, and thus prevent them from accomplishing anything for labor. Few labor advocates can avoid emphasizing their demands in a fashion which makes certain of but one result—general opposition from those who are so unfortunate as to be associated with them in law making.

If such a record is of any particular value, Mr. Hayes has as certainly "come up from the ranks" as has any candidate of labor. His antagonist is certain he can do more for labor with his mouth than with his hands, and so he enters politics. So thought Eugene Schmitz, but the interests of labor were soon forgotten in a heartless desire to fill his own strong box. John Mitchell turned aside from a chance to be nominated for Governor of Illinois, and even Vice President because he believed that in chose directions lay nothing for labor. Grim, old Samuel Gompers, while a power in politics, has been to wise to ask for an office. We hope the present head of the State Federation of laor is stronger than Schmidt, but he gives no indication of being wiser than Mitchell.

Mr. Hayes was not born to affluence even if he never knew poverty. He struggled to secure an education, and to get a start in life. He is now wealthy man, but his wealth was dug out of the earth and made no man a whit the poorer in the getting. For years he has been a large employer of labor in the mine or on the farm bu no matn has ever charged him with unfairness to those he employs. We believe such a life affords a more certain promise of friendship for labor than any amount of lip-service from a professionl labor advocate. He stands for the passage of all reasonable laws for the protection of labor. He believes in a wage scale which will enable the laborer to sustain the standard of life Americans now enjoy, and no laborer is more anxious that all Asiatic competition be forever excluded. With his acquaintance and experience he can do something for labor while his antagonist can do nothing. The voter who trades the substance for the shadow deserves to lose. Promises are cheap. It is performance that thinking men call for, and that is what Mr. Hayes has given you for the last four years. Turn him down by your votes and you will realize your mistake after it is too late.

If Mr. Bryan were elected, a Democrat from this district could accomplish nothing, for the Senate would block such legislation as the House might pass if it were Democratic. No Democratic legislation was possible in Cleveland's first term, even with the help of his mighty will. If the Democracy should win the Presidency and secure a majority of both Houses, we don't believe a Democrat could even then do anything of value for this district. Our reason for such a belief is the record that party made in Cleveland's second term. The people elected them to revise the tariff, and pushed forward by a President, who did not know how to forget a pledge, they passed a law that Cleveland was ashamed to sign. Their income tax was so drawn as to be pronounced unconstitutional by the Supreme Court, and the President by reason of a panic was forced to borrow $232,000,000 in time of peace to carry on the government.

Those who lived through those times are not likely to forget it, nor to wish to repeat the experiment. Mr. Bryan has little of Mr. Cleveland's force or persistence, and the pople recognized that when they sent him to defeat in 1896. There are but two oasesc in the Democratic desert which stretches from 1860 to 1908, and those are the two administrations of Cleveland. He was seldom able to lead his party to do the rgiht thing. No forward step marks its march in 48 years. It is now less worthy to be trusted than ever before in its history; and we are satisfied that such will be the decision of the voters in this election.

Passed the Assembly, March 6, A. D. 1907. Clio Lloyd, Chief Clerk of the Assembly.

CHAPTER 424. An act to provide for the issuance and sale of state bonds to create a fund for the construction by the board of state harbor commissioners of wharves, piers, seawall, state railroad, spurs and appurtenances in the city and county of San Francisco; to create a sinking fund for the payment of said bonds; and providing for the submission of this act to a vote of the people.

The people of the State of California, represented in senate and assembly, do enact as follows:

SECTION 1. For the purpose of providing a fund for the payment of the indebtedness hereby authorized to be incurred by the board of state harbor commissioners for the erection of wharves, piers, seawall, state railroad, spurs and appurtenances in the city and county of San Francisco, at a cost not to exceed two million dollars (which said wharves, piers, seawall, state railroad, spurs and appurtenances the board of state harbor commissioners are hereby empowered to construct in the manner authorized by law, and at a cost not to exceed said two million dollars), the state treasurer shall, immediately after the issuance of the proclamation of the governor provided for in section 10 hereof, prepare two thousand suitable bonds of the State of California, in the denomination of one thousand dollars each. The whole issue of said bonds shall not exceed the sum of two million dollars, and said bonds shall bear interest at the rate of four per centum per annum, from the time of the sale thereof, and both principal and interest shall be payable in gold coin of the present standard value, and they shall be payable at the office of the state treasurer, at the expiration of nineteen years from their date, subject, however, to redemption by lot as in this act hereinafter provided. Said bonds shall bear date the second day of January, A. D. nineteen hundred and nine, and shall be made payable on the second day of January, nineteen hundred and twenty-eight A. D. The interest accruing on such of said bonds as are sold, shall be due and payable at the office of the state treasurer on the second day of January, and on the second day of July, of each year after the sale of the same; **provided**, that the first payment of interest shall be made on the second day of January, A. D. nineteen hundred and ten, on so many of said bonds as may have been theretofore sold. At the expiration of nineteen years from the date of said bonds, all bonds sold shall cease to bear interest and likewise all bonds redeemed by lot shall cease to bear interest as in this act provided, and the said state treasurer shall call in, forthwith pay and cancel the same, out of the moneys in the second San Francisco seawall sinking fund provided for in this act, and, he shall on the first Monday of January, nineteen hundred and twenty-eight, also cancel and destroy all bonds not theretofore sold. All bonds issued shall be signed by the governor, and countersigned by the controller, and shall be endorsed by the state treasurer, and each shall have the seal of the state stamped thereon. Each bond shall contain a clause that it is subject to redemption by lot after the year nineteen hundred and eighteen.

SEC. 2. Interest coupons shall be attached to each of said bonds, so that such coupons may be removed without injury to or mutilation of the bond. Said coupons shall be consecutively numbered, and shall be signed by the state treasurer. But no interest on any of said bonds shall be paid for any time which may intervene between the date of any of said bonds and the issue and sale thereof to a purchaser.

SEC. 3. The sum of one thousand dollars is hereby appropriated to pay the expense that may be incurred by the state treasurer in having said bonds prepared. Said amount shall be paid out of the San Francisco harbor improvement fund on controller's warrants, duly drawn for that purpose.

SEC. 4. When the bonds authorized to be issued under this act shall be duly executed, they shall be by the state treasurer sold at public auction to the highest bidder for cash, in such parcels and numbers as said treasurer shall be directed by the governor of the state under seal thereof, after a resolution requesting such sale shall have been adopted by the board of state harbor commissioners; but said treasurer must reject any and all bids for said bonds, or for any of them, which shall be below the par value of said bonds so offered; and he may, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof offered to such time and place as he may select. Due notice of the time and place of sale of all bonds must be given by said treasurer by publication in two newspapers published in the city and county of San Francisco, and also by publication in one newspaper published in the city of Oakland, and by publication in one newspaper published in the city of Los Angeles, and by publication in one newspaper published in the city of Sacramento, once a week during four weeks prior to such sale. The costs of such publication shall be paid out of the San Francisco harbor improvement fund, on controller's warrants duly drawn for that purpose. The proceeds of the sale of such bonds shall be forthwith paid over by said treasurer into the treasury, and must be by him kept in a separate fund to be known and designated as the "Second San Francisco Seawall Fund" and must be used exclusively for the construction of wharves, piers, seawall, state railroad, spurs and appurtenances thereto on the water front of the city and county of San Francisco. Drafts and warrants upon said fund shall be drawn upon and paid out of the San Francisco harbor improvement fund.

SEC. 5. For the payment of the principal and interest of said bonds a sinking fund, to be known and designated as the "Second San Francisco Seawall Sinking Fund" shall be, and the same is hereby created, as follows, to wit: The state treasurer shall, on the first day of each and every month after the sale of said bonds, take from the San Francisco harbor improvement fund such sum as, multiplied by the time the bonds then sold and outstanding have to run, will equal the principal of the bonds sold and outstanding at the time said treasurer shall so take said sum from said San Francisco harbor improvement fund, less the amount theretofore taken therefrom for said purpose; and he shall place the sum in the second San Francisco seawall sinking fund created by this act. Said state treasurer shall, on controller's warrants, duly drawn for that purpose, employ the moneys in said sinking fund in the purchase of bonds of the United States, or of the State of California, or of the several counties or municipalities of the State of California, which said bonds shall be kept in a proper receptacle, appropriately labeled; but he must keep always on hand a sufficient amount of money in said sinking fund with which to pay the interest on such of the state bonds herein provided to be issued as may have heretofore been sold. And to provide means for the payment of interest on the bonds that may be sold and outstanding, said treasurer shall monthly take from the San Francisco harbor improvement fund, and pay into said seawall sinking fund, an amount equal to the monthly interest then due on all bonds then sold, delivered and outstanding. The board of state harbor commissioners are hereby authorized and directed by the collection of dockage, tolls, rents, wharfage and cranage to collect a sum of money sufficient for the purposes of this act, over and above the amount limited by section two thousand five hundred and twenty-six of the Political Code of the State of California. Between the first and tenth day of November, in the year nineteen hundred and eighteen and between the first and tenth day of November of each year thereafter until the maturity of said bonds the said treasurer shall, in the presence of the governor, proceed to draw by lots such an amount of bonds as shall be requisite to exhaust as nearly as may be the amount in said sinking fund at that time, and shall thereupon and before the tenth day of December following, give notice by public advertisement to be inserted twice a week for two weeks in two newspapers published in the city and county of San Francisco, and also in one newspaper published in the city of Oakland, and also in one newspaper published in the city of Los Angeles, and also in one newspaper published in the city of Sacramento, stating the number of bonds so drawn and that the principal of said bonds will be paid on presentation to the treasurer on or before the second day of January, following, and that from and after such last named date, all interest upon bonds thus drawn shall cease, and it shall be the duty of the treasurer as soon as said bonds so drawn by lot are surrendered to him and paid to cancel the same, and the interest coupons thereon, and each year beginning with the year nineteen hundred and eighteen, the said treasurer shall in the manner aforesaid, proceed to draw by lot such an amount of bonds as shall be requisite to exhaust as nearly as may be the amount in said sinking fund, and proceed in the manner hereinabove stated. After the payment of all said bonds, the surplus or balance remaining in said sinking fund, if any there be, shall forthwith be paid into the San Francisco harbor improvement fund. At the time of the respective drawings by lot, as aforesaid, and also at the maturity of said state bonds, said treasurer shall sell the United States or other bonds then in said sinking fund, at governing market rates, after advertising the sale thereof in the manner hereinbefore provided for the sale of bonds hereby authorized to be issued, and shall use the proceeds for the payment of such bonds as may be drawn by lot, and at the maturity of said bonds outstanding shall pay and redeem said matured outstanding bonds out of said moneys in said fund in extinguishment of said bonds on controller's warrants duly drawn for that purpose.

SEC. 6. The state controller and the state treasurer shall keep full and particular account and record of all their proceedings under this act and they shall transmit to the governor an abstract of all such proceedings thereunder, with an annual report, to be by the governor laid before the legislature biennially; and all books and papers pertaining to the matter provided for in this act shall at all times be open to the inspection of any party interested, or the governor, or the attorney-general, or a committee of either branch of the legislature, or a joint committee of both, or any citizen of the state.

SEC. 7. It shall be the duty of the state treasurer to pay the interest of said bonds, when the same falls due, out of the sinking fund provided for in this act, on controller's warrants duly drawn for that purpose.

SEC. 8. This act, if adopted by the people shall take effect on the thirty-first day of December, A. D. nineteen hundred and eight, as to all its provisions except those relating to and necessary for its submission to the people, and for returning, canvassing, and proclaiming the votes, and as to said excepted provisions this act shall take effect immediately.

SEC. 9. This act shall be submitted to the people of the State of California for their ratification at the next general election, to be holden on the third day of November, A. D. nineteen hundred and eight, and all ballots at said election shall have printed thereon and at the end thereof, the words, "For the San Francisco Seawall Act," and in a separate line under the same words, "Against the San Francisco Seawall Act," and opposite said lines there shall be left spaces in which the voters may make or stamp a cross to indicate whether they vote for or against the said act, and those voting for said act shall do so by placing a cross opposite the words "For the San Francisco Seawall Act," and all those voting against the said act shall do so by placing a cross opposite the words "Against the San Francisco Seawall Act." The governor of this state shall include the submission of this act to the people, as aforesaid, in his proclamation calling for said general election.

SEC. 10. The votes cast for or against this act shall be counted, returned and convassed and declared in the same manner and subject to the same rules as votes cast for state officers; and if it appear that said act shall have received a majority of all the votes cast for and against it at said election as aforesaid, then the same shall have effect as hereinbefore provided, and shall be irrepealable until the principal and interest of the liabilities herein created shall be paid and discharged, and the governor shall make proclamation thereof; but if a majority of the votes cast as aforesaid are against this act then the same shall be and become void.

SEC. 11. It shall be the duty of the secretary of state to have this act published in at least one newspaper in each county, or city and county, if one be published therein, throughout this state, for three months next preceding the general election to be holden in the month of November, A. D. nineteen hundred and eight, the costs of publication shall be paid out of the San Francisco harbor improvement fund, on controller's warrants duly drawn for that purpose.

SEC. 12. This act may be known and cited as the "Second San Francisco Seawall Act."
